

I know that you have not heard a lot from your constituents about this issue, but let me assure you, it is not because we do not care. Since the issue involves the media I find it highly suspicious that we have not heard more about it. Emo Phillips once said, "I used to think that the Brain was the most important part of the body. Then I remembered what was telling me that." The media is telling you that their best interests are what is supported in this case. I pray you remember who is telling you that.
